SAMI ULLAH KHAN

FRONTEND REACT DEVELOPER

Rawalpindi, Pakistan • 03012526578 • samiullahkhan.lki@gmail.com • linkedin.com/in/reactbysami • github.com/Sami2526

PROFESSIONAL SUMMARY

Results-driven **Frontend React Developer** with **2+ years of experience** building high-performance, responsive web applications using **React.js, JavaScript (ES6+), Tailwind CSS, and Firebase**. Proven track record in developing reusable UI component libraries, integrating complex REST APIs, and implementing full-stack Firebase architectures (Auth, Firestore, Storage). Experienced in optimizing application performance, resolving state management issues, and delivering seamless user interfaces.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design, State Management (Context API / Redux)

Backend & Cloud: Firebase (Authentication, Realtime Database, Cloud Storage), RESTful APIs Integration, Node.js (Basic), Socket.IO

Tools & Ecosystem: Git, GitHub, Vite, VS Code, Chrome DevTools, Figma, Adobe XD, Cloudinary

PROFESSIONAL EXPERIENCE

Frontend Web Developer | **NextPak Agile Solutions** 2024 – Present | Rawalpindi, Pakistan

- Architected and deployed **10+ responsive, scalable web interfaces** using React.js, Tailwind CSS, and JavaScript, reducing design-to-production turnaround time by 25%.
- Developed modular, highly reusable UI component libraries to maintain cross-project consistency and streamline application development.
- Implemented end-to-end **Firebase Authentication workflows** (OAuth, email/password) and managed real-time database syncing for secure, multi-user applications.
- Integrated **RESTful APIs** and handled complex asynchronous workflows using Async/Await, Fetch, and Axios, improving overall page load speed and API responsiveness.
- Diagnosed and fixed complex frontend bugs, state re-rendering issues, and performance bottlenecks, achieving smoother overall user experience.

FEATURED PROJECTS

MediBook – Doctor Booking System *(React.js, Tailwind CSS, Firebase, OpenAI API, Cloudinary)*

- Built an end-to-end appointment scheduling web application featuring interactive doctor profiles, real-time availability slots, and automated confirmation workflows.
- Integrated **OpenAI API** to power smart health recommendations and optimized media delivery using Cloudinary CDN.

Real-Time Chat Application *(React.js, Firebase, Socket.IO, Node.js, MongoDB)*

- Developed a full-featured messaging app enabling real-time bidirectional communication, supporting text, image, video, and document file sharing.
- Implemented instant notification listeners and secure authentication protocols to safeguard user data.

AI Career Guidance Web App *(React.js, JavaScript, Tailwind CSS, REST APIs)*

- Designed an interactive career assessment portal that dynamically fetches and renders personalized career suggestions based on user inputs and skills.

EDUCATION

BS in Computer Science (BSCS) | **University of Lakki Marwat** 2019 – 2023 | CGPA: 3.67 / 4.00
